

Sample University of Technology

Office of the Dean (Academics)

Ref: ACAD-REG-2024 · Version 3.1

With effect from 1 July 2024

Academic Regulations for B.Tech Programmes

Approved by the Academic Council in its 41st meeting. These regulations replace clause 7.2 of the Academic Regulations 2021 (ACAD-REG-2021).

1. Scope and definitions

1.1 These regulations apply to every student admitted to a B.Tech programme of the University, from the academic year 2024-25 onwards and to continuing students where stated.

1.2 In these regulations, "course" means a theory, laboratory or project course with an assigned course code, and "semester" means an academic term of at least ninety instructional days.

5. Registration

5.1 A student must register for the courses of each semester through the student portal within the registration window announced by the Office of the Dean (Academics).

5.2 A student who is detained in a course under clause 7.4 must re-register for that course when it is next offered.

7. Attendance

7.1 Attendance is recorded for every lecture, tutorial and laboratory session. Attendance percentage is the number of sessions attended divided by the number of sessions held in the course.

7.2 Minimum attendance. A student must have a minimum of 75% attendance in each course to be eligible to appear in the end-semester examination of that course.

7.3 Condonation. Subject to clause 7.2, the Dean (Academics) may condone a shortage of attendance of up to 10% on medical grounds, supported by a medical certificate submitted within seven days of resuming classes. Condonation is not granted for laboratory courses.

7.4 Detention. A student who does not satisfy clause 7.2, after any condonation under clause 7.3, is detained in that course. The result is recorded as DETAINED and the student must re-register for the course.

8. Examinations and evaluation

8.1 Each theory course is evaluated out of 100 marks: 40 marks of continuous internal assessment and 60 marks in the end-semester examination.

8.2 Pass criteria. A student passes a course on securing a minimum of 40% of the aggregate marks of the course.

8.3 Supplementary examinations. A student whose result in a course is FAIL or ABSENT may register for the supplementary examination of that course. A student who is DETAINED is not eligible for the

supplementary examination and must re-register for the course under clause 5.2.

8.4 Internal assessment marks are carried forward to the supplementary examination. Only the end-semester component is re-examined.

8.5 A course in which the latest result is FAIL, ABSENT or DETAINED is an active backlog until it is passed.

9. Grading

9.1 Letter grades and grade points are awarded on the aggregate marks of a course as follows.

Aggregate marks	Letter grade	Grade points
90 to 100	O (Outstanding)	10
80 to 89	A+ (Excellent)	9
70 to 79	A (Very good)	8
60 to 69	B+ (Good)	7
50 to 59	B (Above average)	6
40 to 49	C (Pass)	5
Below 40	F (Fail)	0

9.2 The Cumulative Grade Point Average (CGPA) is the credit-weighted average of grade points of all courses passed, rounded to two decimal places.

10. Promotion

10.1 A student is promoted to the next year of study irrespective of backlogs, but must clear all backlogs before the award of the degree.
